PROFESSIONAL SUMMARY

Technical Architect with 15+ years of experience in enterprise integration and AI-driven automation. Specialized in **Agentic AI, Generative AI, and LLM orchestration** to modernize integration landscapes, reduce manual workloads, and build autonomous, self-healing middleware systems. Over the past 4+ years with HCL's AI Practice Team, I have delivered **strategic vision documents, workshops, and training programs** that accelerated AI adoption across projects. Proven success in:

- **Reducing manual integration effort by up to 25%** through AI-driven automation.
- **Improving enterprise search accuracy by 40%** with RAG-based knowledge systems.
- **Accelerating incident triage by 30%** using AI-powered planner agents.
- **Training 50+ consultants** in Gen AI, Agentic AI, Python, and Prompt Engineering.

SKILLS

Enterprise AI Architecture | Agentic AI | Generative AI | LLM Orchestration | RAG Systems | Python | Java | Groovy | SOA | API Design | Integration Automation | LangChain | LangGraph | phidata | CrewAI | Pydantic AI | MCP | Guardrails | Prompt Engineering | AI Governance (Langsmith) | Multiple Cloud Exposure (AWS/Azure/GCP) | Team Leadership

WORK HISTORY

Technical Architect | April 2015 – Present
HCL Technologies, Noida, India

- Delivered support for '**Adecco EMEA/NAM**' project using TIBCO Admin, BusinessWorks (BW), EMS, ASG, BusinessConnect, and MOVEit, resolving critical integration issues impacting key business processes.
- Contributed to the **AI Practice Team** for over 4 years, applying AI-driven approaches to enterprise integration scenarios.
- **Designed RAG-based knowledge systems** that improved enterprise search accuracy by **40%**, enhancing decision-making speed.
- Conducted and participated in **multiple workshops and HCL-led training programs** focused on Generative AI, Agentic AI, Python, and Prompt Engineering.
- Created **strategic vision documents** outlining how AI capabilities could be integrated into existing projects to modernize workflows and reduce manual effort.
- Collaborated with cross-functional teams to **evaluate AI use cases**, prepare reports, and present findings to stakeholders.
- Built a strong foundation in **LLM orchestration, RAG-based systems, and agentic AI frameworks**, positioning for career progression into advanced AI roles.

Application Expert |August 2013 – April 2015
AMDOCS, Gurgaon

- Contributed over delivery of telecom middleware solutions using TIBCO BW, EMS, Admin and Business Connect

Senior Software Engineer (IT Analyst) | Nov 2012 – July 2013
Teamware Solutions-Deployed at TCS, Chennai

- Roles: Application Expert, Team Lead, Senior Developer
- Tools: Tibco Admin, Tibco BW, EMS, BE, ADB Adapters, Oracle

Senior Software Engineer (Technical Consultant) | Nov 2009 – May 2012
Hewlett Packard (HP), Chennai

- Roles: Application Expert, Team Lead, Senior Developer
- Tools: Tibco Admin, Tibco BW, EMS, BE, ADB Adapters, Oracle

---

PROJECT HIGHLIGHTS

Selected Agentic AI Projects:

- Built an explainable **resume–JD matching system** that improved recruiter efficiency by **30%**, reducing manual screening time.
- Designed a safe **AI financial assistant** that tracked expenses and flagged risky decisions, helping users avoid **15% of potential high-risk transactions**.
- Built an AI-powered system to parse and explain multi-file medical documents, generating **patient-friendly insights** and reducing explanation time by 40% using **MCP architecture**, **robust guardrails**, and **advanced prompt engineering**.
- Created an AI-powered **Multi-City Weather Assistant** that provided travel-friendly advice, reducing planning time by **50%** for frequent travelers.
- Built an **AI-powered Incident Planner Agent** that automated triage, reducing incident classification and remediation planning time by **30%**.
- Implemented a **multi-agent feedback analysis system** with CrewAI that automated ticket generation, cutting manual effort by **25%**.
- Developed an **AI-based customer support assistant** that classified issues and generated responses, improving first-response accuracy by **35%**.

EDUCATION

- AAIDU-Allahabad
  M.Tech (IT), 01/2004

- IGNOU-Lucknow
  MCA, 01/2002

- UNIMACT-Lucknow
  Diploma, 01/1997

- BBA-Bihar University-Muzaffarpur

Graduation, 01/1994

CERTIFICATIONS

- **Agentic AI Engineer – Edureka (Jan 2026)** Validated expertise in multi-agent orchestration, autonomous workflows, and AI-driven integration automation.
- **Generative AI Applications and Technologies – Google Cloud (Aug 2025)** Demonstrated ability to design and deploy Gen AI solutions using cloud-native tools and frameworks.
- **Python Certification – AI for Techies** Strengthened Python programming skills for AI automation, data processing, and prompt engineering.
- **Dell Boomi Integration Essentials & Associate Integration Developer** Certified in cloud integration and middleware automation, enabling seamless enterprise data flows.
- **Sun Certified Java Programmer (Java 2 Platform 1.5)** Established strong foundation in object-oriented programming and enterprise-grade application development.
- **Lean Six Sigma Green Belt Certified** Applied process improvement methodologies to optimize workflows and reduce inefficiencies.

ACHIEVEMENTS

- Cleared **National Talent Search Exam** (State level).
- Recognized for **technical presentations**, **quizzes**, and **debates**.
