PROFESSIONAL SUMMARY

Integration Architect with 15+ years of experience in Enterprise Application Integration using TIBCO BW/EMS/Admin, Boomi, and Managed File Transfer (MOVEit). Specialized in designing scalable and resilient integration platforms across HR, Telecom, and Healthcare domains.

Recently enhanced expertise in Agentic AI-driven integration automation leveraging AI agents, LLM orchestration, function calling, and RAG-based enterprise search to modernize integration landscapes, reduce manual workloads, and build autonomous, self-healing middleware systems.

Seeking opportunities to apply integration and AI expertise in architecting next-generation enterprise solutions.

CORE COMPETENCIES

- Enterprise Integration (TIBCO BW5, EMS, Admin, BC, ADB Adapter)
- Agentic AI & LLM Engineering
- Integration Automation using AI Agents (LangChain, LangGraph, Phidata, CrewAI, AutoGen, GFS and MCP)
- RAG-based knowledge systems
- Managed File Transfer – MOVEit (Transfer, Automation, Gateway)
- Boomi Integration Development & API Management
- Python Automation, Groovy, Java/J2EE
- SOA, API Design, System Architecture, Client Management
- Team Leadership & Project Management

PROFESSIONAL EXPERIENCE

HCL Technologies, Noida
Technical Architect (April 2015 – November 2025)

AMDOCS, Gurgaon
Application Expert (August 2013 – April 2015)

Teamware Solutions (Deployed at TCS, Chennai)
Senior Software Engineer (IT Analyst) (Nov 2012 – July 2013)

Hewlett Packard (HP), Chennai
Senior Software Engineer (Technical Consultant) (Nov 2009 – May 2012)

PROJECT HIGHLIGHTS

Selected Agentic AI Projects:

- Built an explainable resume-JD matching system that scores fit, surfaces evidence, flags gaps, and generates targeted interview prep.
- Built an AI-powered system to parse and explain multi-file medical documents (discharge summaries, lab reports, prescriptions, medicine guides) into patient-friendly insights.
- Built a safe AI financial assistant that fetches real-time stock prices, tracks expenses, remembers context, and flags risky decisions.
- Built an AI-powered Multi-City Weather Assistant that fetches real-time data, compares cities, and gives travel-friendly advice with clothing recommendations.
- Built an AI-powered Incident Planner Agent that automates triage by classifying severity, explaining impact, and suggesting remediation actions for faster SaaS incident response.
- Built a multi-agent AI system to automate user feedback analysis and ticket generation with CrewAI.
- Built an AI-based customer support assistant that automatically understands customer messages, classifies the issue, and generates helpful response.

1. Recent Assignment [HCL]: Senior Integration Consultant

- Designed and implemented **end-to-end integrations using Boomi** for HR systems, reducing manual data transfer by 40%.
- Developed **custom Java components** in Boomi to handle complex business logic and PDF/Excel transformations.
- Built and deployed **TIBCO BusinessWorks solutions** integrating CRM and ERP systems via JMS and web services.
- Led migration of legacy middleware integrations from **TIBCO to Boomi**, improving scalability and lowering infrastructure cost.

2. Adecco EMEA & France / Adecco NAM
Roles: Associate Consultant [Technical Architect]
Tools: Tibco Admin, Tibco BW, EMS, ASG, Business Connect, MOVEit

- Production and Pre-Production Environment maintenance for all Tibco services (EMEA and NAM).
- Enhancement work on existing services with full support over multi-environment (DEV, INT, UAT and PROD).
- MOVEit (Managed File Transfer) environment support (EMEA).

3. Vodafone (Netherlands/UK) – Multiple Projects
Roles: Application Expert, Team Lead, Senior Developer
Tools: Tibco Admin, Tibco BW, EMS, BE, ADB Adapters, Oracle
Highlights:

- **Business Event Notification Services** implementation using publish-subscribe model.
- **Customer Handling Automation** and **Unlock Request** processes.
- Automated **Number Portability** processes for end users.

4. Sun Life, USA / Max New York Life / Manulife, Canada
Roles: Senior Developer
Technologies: Java, Struts, Hibernate
Highlights:

- Delivered modules for **insurance policy management**, **case creation**, and **mass import processing**.

- Developed dynamic UI and integrated backend processing with Hibernate & ANT scripting.

TECHNICAL SKILLS

Category	Tools/Technologies
Languages	Python, Java, C, C++
TIBCO Stack	BW, EMS, RV, ADB Adapter, ASG, Business Connect
Boomi Stack	Boomi Atmosphere, Dell Boomi API Management
Web Technologies	JSP, Servlets, AJAX, XML, HTML, CSS, JavaScript
Traditional Frameworks	Struts 1.2, Hibernate
AI Frameworks	LangChain, LangGraph, RAG LLM orchestration, CrewAI, AutoGen, GFS and MCP
Servers	Tomcat 5.5.9, WebLogic 8.1
RDBMS	Oracle 8i/9i, MySQL
Tools	Eclipse, JUnit, ANT
Managed File Transfer	MOVEit (Transfer, Automation, Gateway)

EDUCATION

- **M.Tech (IT)** – AAIDU Allahabad, 2004
- **MCA** – IGNOU, Lucknow, 2002
- **Graduation -** BBA Bihar University, 1994
- **Diploma** – Computer Programming & System Management, UNIMACT, 1997

CERTIFICATIONS

- **Agentic AI Engineer [Edureka] –** January 2026
- **Generative AI Applications and Technologies [Google Cloud]** - August 2025
- **Python certification through AI for Techies**
- **Dell Boomi** Integration Essentials and Associate Integration Developer Certification
- **Sun Certified Java Programmer** (Java 2 Platform 1.5)
- **Lean Six Sigma Green Belt Certified**
